**FINNISH TAX ADMINISTRATION**  
**PL 30**  
**00052 VERO**  
**FINLAND**

**Ref: 571/BASe/2016**

**Your contact person:** Robert Björkman – Senior Tax Clerk

Noora Riekkinen – Senior Tax Clerk

**Your Reference No.:** 091 2669284-2 59 12

We, the undersigned **Budapest Aircraft Service Ltd.** (headquarters: Hungary 2220 Vecsés, Árpád u. 37.) on basis of your request dated the 26/08/2016 apply to you with the following information:

Between Finland and Hungary the international treaty, signed on October 25, 1978 by our two countries, is in force (hereunder: the Treaty) the subject of which is the avoidance of double taxation. The referred Treaty constitutes a part of internal laws in both States that means it is qualified as prevailing law also in Finland.

The information of 26/08/2016 received from you (respectively the request for income tax return in Finland) does not take into consideration facts which could not be known to your authority. Namely the questionnaire (formerly filled in by us) related to our activity in Finland has not addressed a substantial fact.

Therefore please allow us to supply herewith some further essential information about our real activity, attaching also the relevant documents. From the now supplied data you can credibly ascertain that the activity of our company is qualified as “international aircraft traffic” also in its share realized in Finland.

According to subparagraph “h” of paragraph 1 of Article 3 of the Treaty all transports are qualified as “international traffic” carried out by aircraft operated in Finland by a company the actual headquarters of which is situated in the other Contracting State (Hungary). It is doubtless that the seat of the effective management of our company is to be found in Hungary.

The request for filing a tax return in Finland may have arisen on your part because the Treaty defines in the said subparagraph also a rule for “exception”. That is: the traffic does not belong in

the sphere of international traffic if **the aircraft** in question performs flights **solely** between places (cities) in the other Contracting State (Finland).

The questionnaire formerly filled in by us does not contain important facts from which it can be stated that our flights between cities in Finland in practice do not give grounds for applying the above rule of exception but these flights belong in the sphere of international traffic.

In order to demonstrate this fact we make following declaration (authenticity of our declaration can be controlled on basis of the documents related to the flights, further of those of the Finnish and Hungarian authorities.) :

We realize the flights in Finland (between two cities) by units of our aircraft fleet in Hungarian registration (belonging to the property of our company). Our contract does not oblige us to perform the flights in Finland by the same aircraft or type or by specially determined aircraft that should be located in Finland.

The flights in Finland were/are actually not carried out by the same aircraft. In the year 2015 two aircraft owned by us took part in performing our flight tasks within Finland having the following registration marks: HA-FAL, HA-FAI.

It is of the utmost importance that these aircraft are not in service exclusively in the flights between two Finnish cities. **Both aircraft regularly participate in international traffic.** As a part of international traffic the management of our company disposes that at fixed times an aircraft of ours carries out flight task due in Finland and then it realizes another-international-flight tasks.

It is out of the question that there would be one dedicated / specific aircraft performing **solely** the traffic between Finnish cities and thus permanently staying in Finland for this reason.

The fact itself that among the numerous (flight) contracts of our enterprise there is a contract too, on basis of which regular flights are realized between two Finnish cities, it does not mean that the aircraft in question have left the international traffic operated by us.

The attached table shows how wide-range flight tasks our two aircraft, flying also between Finnish cities, carried out in the year 2015 outside Finland.

Resulting from the above it is an unquestionable fact that we do not operate any of our aircraft only in Finland (between Finnish cities) and **we do not have permanent establishment in Finland.**

That is why according to subparagraph “h” of paragraph 1 of Article 3 of the Treaty all of our activities (among them their part realized in Finland) shall be qualified as international traffic. The income deriving from this traffic according to paragraph 1 of Article 8 of the Treaty is to be taxed in the place of residence of our company’s effective management that is in Hungary.

In conformity with the above, of course, all incomes arising from our activity in Finland are included in the tax return for the year 2015 filed by our company with the Hungarian tax office. We have already paid to the Hungarian tax office the profit tax connected with our income from this activity while we have effected payment of the turnover tax (VAT) in Finland in compliance with the relevant Finnish rules.

(In case if according to the Treaty in question we should have paid income tax in Finland for our income realized in Finland, we would not have paid tax in Hungary based on subparagraph “a” of paragraph 2 of Article 23 of the Treaty. However, in our tax returns filed with the Hungarian tax office we have not applied any deduction referring to our income to be taxed in Finland. If necessary this fact can be confirmed upon a request to the Hungarian tax office that will be ready to response your status inquiry.)

Please find hereunder the list of the above mentioned two aircraft flights in 2015. The flights performed according to the Finnish PSO contract are highlighted with green and brown colour in accordance with the aircraft tail numbers.

Yours faithfully

Mr. ÁRMAI Zoltán  
CEO  
Budapest Aircraft Service Ltd

Hungary Budapest, 09/09/2016
